

# crypt@b-it 2006

17-21 July 2006,  
b-it, Bonn, Germany.

This summer school on cryptography offers undergraduate and graduate students and researchers the opportunity to crypt a bit. It provides acquaintance and interaction in an intellectually stimulating and informal atmosphere in pleasant surroundings.

## Speakers

- Joachim von zur Gathen , b-it Bonn,
- Phong Nguyen , CNRS Paris,
- Frank Niedermeyer, BSI Bonn ,
- Charles Rackoff , University of Toronto.

## Programme

	Monday	Tuesday	Wednesday	Thursday	Friday
0900-1030	Charles Rackoff, Fundamentals and theoretical security notions				
1100-1230	Phong Nguyen, Lattices in cryptology				
	Lunch break				
1400-1530	Joachim von zur Gathen, Group cryptography	Frank Niedermeyer, The Enigma machine	Boat excursion on the Rhine	Joachim von zur Gathen, Group cryptography	
1600-1730	Tutorials and exercises			Tutorials and exercises	

## Registration

- The intended audience are undergraduate and graduate students as well as postdocs and researchers who work in the area or at least have a basic knowledge.
- The event is for free. Each participant will contribute 25€ (for refreshments during the breaks) plus the boat fare (for those who take part in the boat excursion).
- Registration: **Register online(!) before Thursday 6 July 2006.**
- Webpage: <http://www.b-it-center.de/> →Groups →computer security  
→Summer school: crypt@b-it 2006
