Guidelines for course registration – first semester students

I kindly ask you to pay special attention to the following when registering for the courses in which you want to get credits:

1. Please register only for those lecture courses in which you really intend to participate in the exam to get credits.
2. If you register for an exam/seminar and later decide not to write the exam or fulfil the course requirements for credits, you must then submit a WITHDRAWAL form to the exam office which is also enclosed.
3. Withdrawal from exams, that is the first and second attempt of a lecture course, must take place 1 week prior to the respective set dates of the exams.
4. Withdrawal from seminars or lab courses during the semester should take place 1 week prior to the end of the lecture period, i.e. the latest by 28.01.2022.
5. Please note if you are registered for an exam and cannot attend, you must submit a medical certificate to the exam office. If a medical certificate is not submitted, the exam will be considered as failed (grade 5.0), so please make sure to take this into consideration.

In order to keep track of the courses that you must fulfil to satisfy the requirements of the program, please refer to the module structure, effective as of the winter semester 2019/2020 on the Exam Office website.

For further information, please refer to the exam regulations to be found on the b-it programs, M.Sc. in Life Science Informatics website.

Please do not forget to sign the form! The form should be submitted as a PDF per email to the exam office (examoffice-lsi@bit.uni-bonn.de) at the latest by:

**Tuesday, 26 October 2021**

These forms are also available on the Exam-Office homepage. Please note that it will not be possible to register for courses after this deadline.
