**M.Sc. Human-Centered Intelligent Systems (HCIS): Cooperative Study Program**

**8. Mai 2025**

To whom it may concern,

The Department of Computer Science at RWTH Aachen University offers a Master's degree program in:

Human-Centered Intelligent Systems (Master of Science)

It is a cooperative study program between RWTH Aachen University, University of Bonn and the Bonn-Aachen International Center for Information Technology (b-it).

According to the examination regulations §2 par. 3 the official teaching language is English. Thus, all compulsory and elective modules are taught in English.

The program has a duration of four semesters and the average time spent is six semesters. Graduation is offered once a year in September. All compulsory courses take place in the b-it building in Bonn. Some elective courses may take place in Aachen, but the general recommendation is to live in Bonn. The programme officially starts in October but recommended welcome offers are offered in September. Also, preferred move-in date in student residence is September and October.

Best regards,

Dr. Lubna Ali
